SUMMARY

Backend developer with 4+ years of experience building and maintaining production web applications using Laravel and MySQL. Currently exploring system design and data pipelines.

WORK EXPERIENCE

Electronic First FZ

Software Engineer (Laravel)

Remote, UAE
Oct 2021 – Present

- Developed and maintained backend features for high-traffic Laravel applications
- Optimized MySQL queries and refactored legacy code to improve performance and scalability
- Designed and implemented REST APIs for internal and external systems
- Integrated third-party services and payment gateways
- Debugged and resolved production issues to ensure system stability
- Worked with automation and scraping tools (Puppeteer, BrowserKit)
- Managed framework upgrades and applied Laravel best practices

Technologies: Laravel, MySQL, ClickHouse, REST APIs, Livewire, Alpine.js, Git, Linux

Amcoders

Laravel Developer

Remote, Bangladesh
Jan 2021 – Jul 2021

- Built Laravel-based systems including ticketing and management platforms
- Implemented authentication systems (multi-auth, 2FA, email verification)
- Integrated APIs and payment gateways (Stripe, PayPal, Twilio, Mailchimp)
- Developed dynamic UI features using jQuery and AJAX

Technologies: Laravel, MySQL, jQuery, AJAX, Git

PROJECTS

SignalStack — Real-time data pipeline (ingestion → processing → enrichment → serving)

- Designed async processing pipeline using queues
- Implemented caching strategies for performance optimization
- Built AI-assisted enrichment workflow
- Conducted load testing and identified system bottlenecks

Hujjah — Privacy-first, offline Islamic research engine

- Built full-text and semantic search across Quran (6,236 verses) and 36K+ hadith
- Implemented local AI chat with RAG pipeline using llama.cpp and Transformers.js
- Designed interactive sanad chain visualization with narrator explorer
- Cross-platform via Tauri 2.0 (macOS, Windows, Linux) with SQLite + FTS5

Technologies: Next.js, React, Tauri, SQLite, Transformers.js, Tailwind

Other Projects: Faculty Routine Management System, E-Bank System, Lenden Payment Gateway, Timelock Project Management System

TECHNICAL SKILLS

Backend	Laravel, Livewire, CodeIgniter
Frontend	Tailwind, Bootstrap, Alpine.js, jQuery, JavaScript
Database	MySQL, ClickHouse
Systems	Docker (basic), Linux
Tools	Git, VS Code

CURRENT FOCUS

- System design fundamentals
- Async processing & queues
- Data pipelines & real-time systems
- Infrastructure basics (Docker, Kubernetes)

EDUCATION

Port City International University

B.Sc. in Computer Science & Engineering

2020

Daffodil Institute of IT

Diploma in Computer Technology

2016

LANGUAGES

Bengali (Native), English (Fluent)
